CURRENT NEEDS

Believers in Southeast Asia— STILL HOPING!

One region in Southeast Asia is an Islamic stronghold, but Christians there are mobilizing to translate God's Word to share the truth with their countrymen. But they need technology!

[HELP NOW](#)

You can give them the gospel . . .

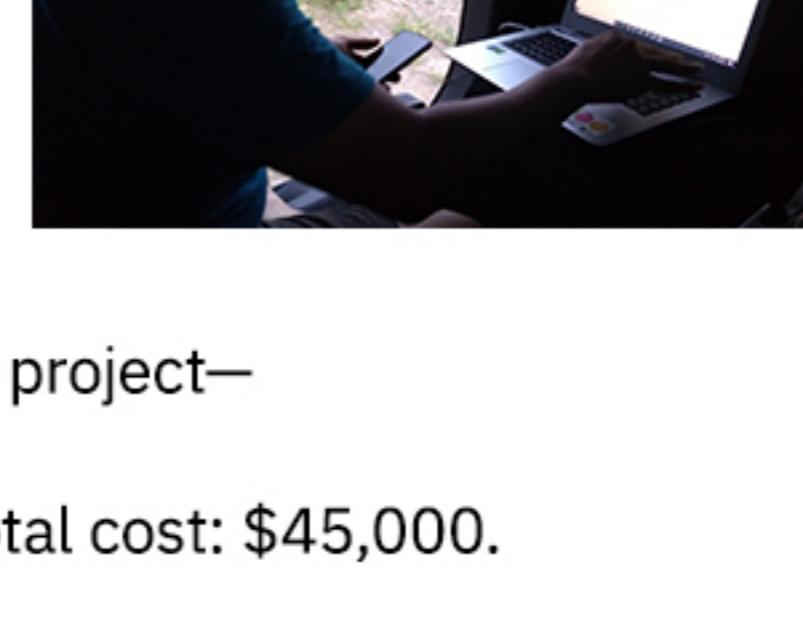

Sometimes, a Bible isn't enough

Christians pleading for God's Word!

Believers need your help so millions of people in a Muslim-dominated area of Southeast Asia can finally experience God's Word in their own heart language *for the very first time*. Give now.

SHARE GOD'S WORD WITH SOUTHEAST ASIA!

In spite of persecution, COVID, and natural disasters, the Christians of Southeast Asia are asking for tools to translate the Bible into the language of their hearts. **Every \$1,500 you give will equip a team of Christians with TNT—Technology for National Translators.**

There are 30 translators praying for the opportunity to launch their translation project—

Technology for 30 Bible translators—total cost: \$45,000.

Every TNT kit includes a highly specialized computer, Bible translation software, access to translation resources, an immediate-storage system to protect translated text from being confiscated or destroyed by enemies of the gospel—and the training a team needs to put it all to use.

Please partner with us to answer the prayers of these believers because millions still wait for a Bible they can read in the language they grew up with, the language of their hearts.

Whether you give to outfit one translation team or an entire region, you can trust that God's Word will sweep through Southeast Asia, village by village, bringing the hope of the gospel to people who are living in spiritual darkness.

Thank you for praying and giving to provide the tools, technology, and training Christians in Southeast Asia need to share God's Word with their unsaved neighbors.

Praying for a Bible!

Risking all, the Christians of Southeast Asia are asking for tools to translate the Bible!

From: Lorien Johnson <lorien@wycliffeassociates.org>
To:
Subject: It's ambitious, but God is Great
Preview text: In the coming days, you will receive some exciting news . . .

In the coming days, you'll receive some exciting news from Mark Stedman, our Vice President of Technology, about the vital need in Southeast Asia—and about an ambitious opportunity to provide Bible translation technology for 30 translators.

This area in Southeast Asia has more Muslims than any place on earth, but there are Christians there, and they are planting churches and bringing people to faith in Christ! The problem is that many of the churches and congregations STILL do not have a Bible in their heart language . . .

So they are asking believers like us to give them the tools, technology, and training: Technology for National Translators—TNT for short—to get started translating Scripture.

This goal is within reach because the TNT kit a translation team needs is just \$1,500. The challenge comes in that there are 30 translators waiting, and they are all hoping and praying that we can say yes to them.

Please take a minute to read about the challenges these teams are facing and how TNT can change everything, and please share this important news with your praying friends!

[Click here to share on Facebook.](#)

Thank you for your prayers and partnership as a Bible Translation Ambassador. Your faithfulness and enthusiasm for God's Word contributes greatly to the momentum that makes initiatives like the one in Southeast Asia possible!

Blessings,
Lorien

Subject: What They Need Is TNT

Preview text: One of our greatest joys is to see others come to know and love God's Word and then to see the transformation it brings.

Dear [Salutation],

As believers, one of our greatest joys is to see others come to know and love God's Word, and then to see the transformation it brings.

This is why I am thrilled to bring you an extraordinary opportunity to touch the lives of millions of people in a Muslim-dominated area of Southeast Asia by giving them the chance to finally experience God's Word in their own heart language *for the very first time.*

We have church partners in Southeast Asia who are asking for help—for the tools, technology, and training—to launch their Bible translation projects. These language groups do not have a Bible in their own heart language, and 30 translators need technology to get started.

I pray we can say yes to these passionate believers who—in spite of persecution, COVID, natural disasters, poverty, and other challenges—are longing for the help they need to translate the Bible into the language of their hearts.

What they need is TNT, which is short for Technology for National Translators. It's a kit that equips a Bible translation team with everything they need to get started translating Scripture—

TNT includes a highly specialized computer that is fully loaded with Bible translation software, an immediate storage system, access to the internet, and the training they need to begin translating. Another important advantage TNT gives these teams is safety and security. Because their work is stored safely online or "in the cloud," their translated Scripture cannot be discovered and destroyed by hostile authorities and non-Christian language groups.

Just \$1,500 can **outfit a national Bible translator in a tiny village or on a remote island** in Southeast Asia with everything they need.

A \$1,500 investment means there will soon be Scripture in a language where it has never existed before and that a believer will soon be able to read and understand Scripture, and use it to bring the unreached to faith in Christ!

Please make a gift now toward the \$45,000 it will take to say yes to all 30 translators. Whether you equip a team or an entire region, your support means more believers will soon be able to read and understand Scripture, and use it to preach, teach, and bring the unreached to faith in Christ!

Thank you for praying and giving generously to launch Bible translation projects in the Islam stronghold of Southeast Asia.

Blessings,
Mark

Subject: Update from Southeast Asia
Preview text: Just a quick follow-up to my email from a couple of days ago . . .

Dear [Salutation],

I just wanted to send a quick follow-up to my email from a couple of days ago to share a request from the leader of our work in Southeast Asia.

Philip (I've changed his name for security purposes), my colleague there, asked me to let you know that these are difficult days. He said they are surviving persecution, terrible pressures, and violence. They have been battered by natural disasters—earthquake, cyclone, and a volcanic eruption. Plus, COVID is still threatening lives while inflation drives more people deeper into poverty.

But he asked me to stress that despite all these challenges, they remain focused on God's Word because that's what they need most.

He says his people need the Word in their own heart languages because they can't grasp the truth completely until they can absorb the Scriptures in their "mother tongue," their first language. This makes perfect sense . . . how can you study and grow in God's Word if you can't read and understand it?

Another point he makes really hit me hard. He says, "I truly believe the spiritual darkness of my country can be dispelled if people have the Bible in the language of their hearts."

Please continue to pray with me that we will be able to say yes to Bible translators in Southeast Asia, specifically—

- Translation teams in the western region, where Islam has the strongest hold and many Christians face danger on a daily basis;
- In the central region, where dozens of translation teams are waiting to begin translating;
- In the eastern region, where translators face geographic isolation and need technology to connect to the internet and collaborate with other translators.

Please support this important initiative. Equipping a translation team with a TNT kit is just \$1,500. And our goal right now is to provide the 30 most immediately needed TNT kits for teams that are waiting. They are all hoping and praying that we can say yes to them.

Thank you for partnering with us, giving generously to help Bible translators in Southeast Asia share God's Word with their own people, in their own heart languages.

Yours in Christ,
Mark

Subject: "God Hears Our Cries and Prayers"

Preview text: There are 30 Bible translators in Southeast Asia hoping and praying for the tools, technology, and training they need.

Dear [Salutation],

There are 30 Bible translators in Southeast Asia hoping and praying for the tools, technology, and training they need—TNT (Technology for National Translators). We don't want to say no to even one of these translation projects!

One of our church partners in the eastern region asked, "**How will they hear God's word for SALVATION? They don't know Tok Pisin (the majority language) or English. A Bible needs to be in their mother tongue. God hear our cries and prayers.**"

Another church partner wrote to share that a recent convert said, "I want to get baptized and be part of what God is doing. I can't thank the Lord enough for continuing to draw people not only to His saving grace but also His work and ministry."

These are passionate Christians who are willing to risk all just for the tools and training to translate God's Word into their own language!

Please make a gift to give these believers the opportunity to launch Bible translation projects that will see Scripture come to life in languages it has never been seen in before.

Just \$1,500 can outfit a national Bible translator in a tiny village, on a remote island in Southeast Asia with everything he or she needs to start a translation project. To say yes to all 30 translators, we'll need to raise \$45,000.

Thank you for praying with us and giving as you feel led to equip Southeast Asian Bible translators with TNT so they can share God's Word with their people, in their heart languages.

Blessings,

Mark

Subject: Philip's Note to You

Preview text: I am passing along this request to you. My colleague writes . . .

Dear [Salutation],

On behalf of the churches and believers in Southeast Asia who are asking for TNT—Technology for National Translators—I am passing along this request to you. My colleague writes,

"They're ready to work! Everybody says the same thing to me: Southeast Asia needs God's Word!

But people need the Scriptures in the language of their hearts. TNT will help so much! It's essential.

We are praying for divine intervention. Despite all the bad things happening in our world today, we're believing that God's plan will prevail!

Please let our friends there know that this is serious. Eternity is on the line, my brother!"

Just \$1,500 will equip a national Bible translator with the technology he or she needs to begin translating God's Word into a language where it does not yet exist.

Please consider sharing a gift toward the \$45,000 it will take to say yes to 30 Bible translators. Your gift means more believers will soon be able to read and understand Scripture in the language of their hearts!

Thank you for praying and giving generously to launch Bible translation projects in one of the most spiritually dark places in the world.

Blessings,

Mark

Subject: A Vow From Her Deathbed
Preview text: As you pray for God's blessing on believers in Southeast Asia who are asking for the tools and training to translate Scripture . . .

Dear [Salutation],

As you pray for God's blessing on believers in Southeast Asia who are asking for the tools and training to translate Scripture into their languages for the very first time, I ask you to also pray for a national Bible translator who has shown extraordinary courage and grace, faith and perseverance . . .

Like all of our partner churches and Bible translators in a region in Southeast Asia—the most populous Muslim nation in the world—she knew persecution was always a very real threat. But her commitment to God, to herself, to her team, was to keep working until she had a Bible in her language, in a language she can read and understand.

Using computers and training provided by caring and committed friends like you, her translation team was making great headway when suddenly, without warning, she became very ill.

Family and friends gathered, praying to God for her life. That's when, from her deathbed, she made a vow to the Lord that she would continue working to her last breath.

Honoring her devotion and focus, God miraculously healed her. She got off of her deathbed and went right back to work translating the Scriptures for her people!

This is the passion and dedication we see among our translation partners in Southeast Asia. And it's why I ask for your prayers and support to equip the 30 more Bible translators with the tools, technology, and training—they need to begin translating Scripture.

Every \$1,500 you help give will equip a translator with TNT—Technology for National Translators.

Thank you for standing with our brothers and sisters in Christ in Southeast Asia who ask only for the chance to translate and share God's Word.

Blessings,
Mark

Dear [Salutation],

I am so thankful for the prayers and outpouring of support to help provide the training and resources that Bible translation teams in Southeast Asia need to bring God's Word to their communities.

When I shared the goal of equipping 30 Bible translators with TNT—Technology for National Translators—I trusted God that partners like you would step up and answer. We can rejoice that together, we can provide local churches and Bible translation teams with everything they need to translate God's Word into their heart languages.

Each TNT kit you helped provide comes with a special computer that is fully loaded with translation software, and can access the internet to help even the most remote teams get online for virtual collaboration as well as cloud storage for their translation work.

TNT kits are transformative because they put Bible translation into the hands of the local church and enable language groups to pass on their learnings and techniques to surrounding communities and languages that still need God's Word. This creates a ripple effect that could sweep across Southeast Asia and surrounding nations!

Thank you for praying and giving to make this technology available to dedicated and committed Christians in Southeast Asia. Their lives—and their communities—will be forever changed because God's Word can finally be learned, taught, and understood in the language of their hearts.

Let us praise God that soon, many language groups that have been yearning for God's Word—in some cases for generations—can now finally experience Scripture in their own language.

Blessings,

Mark

Mark Stedman, Vice President of Technology
Wycliffe Associates

PS. If you haven't had a chance to give—or you feel led to give another generous gift—the need is still great! There are more language groups waiting to translate God's Word into their heart languages. **Your gift today will help provide the tools and training these believers need . . .**
Thank you for helping advance the gospel in Southeast Asia and around the world through Bible translation!

Christians Asking for Help in the World's Largest Muslim Region

Like 11K

It's not easy to be a believer in Southeast Asia. Islam is a stronghold and religious persecution can be extreme, often sanctioned by governing authorities.

But there are Christians there who are actively reaching the unreached to share the hope of the gospel. They are planting churches and are rejoicing that God continues to protect and advance their ministry.

But they are still waiting for a Bible they can read in the language they grew up with, the language of their thoughts and hearts.

So in spite of persecution, COVID, natural disasters, and terrible poverty, the Christians of Southeast Asia are asking for tools to translate the Bible into the language of their hearts. Fifteen national Bible translators are asking Wycliffe Associates for TNT.

What is TNT?

TNT is short for Technology for National Translators. It's a kit Wycliffe Associates provides to equip a team of believers with everything they need to get started translating Scripture. Each kit includes a very specialized computer that is sturdy and fully loaded with software and the ability to access the internet so translators can get online, plus the training they need to begin translating. Another very important advantage TNT gives these teams is security; because their work is stored safely online or "in the cloud," their work cannot be discovered and destroyed by hostile authorities.

A TNT kit costs \$1,500 and here is what it looks like.

Imagine, just \$1,500 can outfit a team of national Bible translators in a tiny village, on a remote island in Southeast Asia with everything they need to start a translation project. A \$1,500 investment means that there will soon be Scripture in a language where it has never existed before! Just \$1,500 means that a believer will soon be able to read and understand Scripture, and use it to preach, teach, and bring the unreached to faith in Christ!

To provide the 30 most immediately needed TNTs, we'll need to raise \$45,000.

These are passionate Christians who are willing to risk all. Let's say yes to all these translators!

One of our church partners in the Papua region asks, "How will they hear God's word for SALVATION? They don't know Tok Pisin (the majority language) or English. A Bible needs to be in their mother tongue. God hear our cries and prayers."

Another church partner wrote to share that a recent convert said, "I want to get baptized and be part of what God is doing. I can't thank the Lord enough for continuing to draw people not only to His saving grace but also His work and ministry."

Please pray for these partners and pray with us that God will move in many hearts to realize this ambitious \$45,000 goal so we can help national Bible translators in Southeast Asia share God's Word with their own heart languages.
